EDUCATION & PROFESSIONAL CERTIFICATION

SINGAPORE POLYTECHNIC

- *Diploma in Computer Science [S69], Specialization in Software Development*
- *Cumulative GPA: 3.44/4.0 [Up to SEM4. Est final GPA 3.52-3.67*/4.0]*
- *Front-End Web Development: A; Back-End Web Development: A; Java Programming: A)*

Singapore
Apr 2022 - May 2026

NEW TOWN SECONDARY SCHOOL

- *'O' Levels (Math A2)*

Singapore
Jan 2018 – Dec 2022

COMPUTATIONAL OPTIMIZATION at Work CO@WORK

- *Computational optimization and mathematical programming with real-world applications.*
- *Exposure to cutting-edge methods, expert lectures, hands-on tutorials, and networking with leaders in the field.*

Berlin, Germany
16th - 27th Sep 2024
80 hours = 4SWS (semester houses)

CERTIFICATE IN SUPERVISED MACHINE LEARNING: REGRESSION AND CLASSIFICATION

- *Developed supervised machine learning models in Python using NumPy and scikit-learn for prediction and binary classification.*

DeepLearning.AI Stanford (Online)
Jan 2026
3 modules, 32 hours

ACTIVITIES & ACHIEVEMENTS

DELIVERY HERO's VRPPD CHALLENGE: OPTIMIZE THE FUTURE OF DELIVERY

- *Placed 8/32 in Delivery Hero's optimization challenge, addressing a real-world VRPPD using computational optimization techniques among 120+ participants.*

Berlin, Germany
2024

Fuelture (SPIN-OFF)

- *Team member providing IT support and assistance for AI-based maritime bunker fuel forecasting and optimization projects.*

Singapore
2025

WORKING EXPERIENCE

ADVANCED SEMICONDUCTOR ENGINEERING, ASE SINGAPORE -- IT Intern/Trainee

- *Independently migrated legacy VBA macro programs to high-performance C# applications for inventory checking, reducing Excel report generation time from ~1 minute to 3–5 seconds.*
- *Took over and completed end-to-end development, testing, and deployment of a digital Material Ordering System, replacing a previously manual process.*
- *Independently developed a .NET MAUI application to track and manage scrap materials for internal records, supporting recycling and testing processes.*

Singapore
Apr 2025 – Feb 2026

INDUSTRY OPTIMIZATION & FORECAST PTE.LTD -- Website Designer

- *Designed and developed the company's initial responsive website to clearly present its profile and consulting services.*
- *Structured and showcased service offerings across hospital scheduling, maritime logistics, energy infrastructure, and related solutions.*
- *Implemented intuitive navigation and consistent UI elements to enhance user experience and accessibility across key business areas.*

Singapore
2025

ADDITIONAL INFORMATION

Technical Skills:	HTML, JAVASCRIPT, JAVA, Excel VBA, C#, C++, python, RUST
Languages:	English (native), Chinese(native), German (begininger)
Soft Skills:	Problem Solving, Teamwork
CCAs and Hobbies:	Bouldering (V7), Basketball, Robotics, Diving (Diver Level 2)
